

MONA FAKHRI SALEM

Software Engineer

Cairo, Egypt | monafakhri50@gmail.com | +20 115 492 6990 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in software development across the full stack, with a strong foundation in front-end architecture using React.js and TypeScript, and back-end development with Node.js and NestJS. Proficient in Object-Oriented Programming (OOP), clean code principles, SOLID design patterns, unit testing, RESTful API integration, and Agile workflows. Strong problem-solving and analytical thinking skills with a passion for building reliable, scalable software solutions. Actively seeking software engineering internship opportunities to contribute and grow across all areas of software engineering.

EDUCATION

B.Sc. in Computer Science — Cairo University, Cairo, Egypt

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, C++, SQL

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, NestJS, Redux, Redux Toolkit, Context API, Vue.js, Jest, React Testing Library, Bootstrap, Tailwind CSS, Sass

Web Technologies: HTML5, CSS3, Responsive Design, RESTful APIs, API Integration

Databases: MongoDB, MongoDB Atlas, SQL

DevOps & Tools: Docker, Git, GitHub, GitHub Actions (CI/CD), Webpack, Vite, Postman, Figma

Software Principles: Object-Oriented Programming (OOP), SOLID Principles, Design Patterns, Clean Code, Unit Testing, Debugging, Problem-Solving, Agile, SDLC

Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

Software Development Trainee | Digilians Jan 2026 – Jun 2026 | Cairo, Egypt

- Completed 250+ hours of intensive software engineering training; built end-to-end applications using React.js, Next.js, Node.js, and NestJS following Clean Code, SOLID principles, and Object-Oriented Programming (OOP) best practices.
- Architected HRX, a full-stack B2B SaaS HR management system with 5 core modules, JWT-based authentication, and role-based access control (RBAC) — using React.js, TypeScript, Redux, Node.js, Express.js, and MongoDB Atlas.
- Integrated Performix, an AI-driven performance evaluation engine, to automate employee appraisals and generate data-driven insights for managers; wrote unit tests with Jest and React Testing Library to validate core business logic.
- Managed CI/CD pipelines with Docker and GitHub Actions; maintained version control and Agile sprint collaboration using Git/GitHub.

Front-End Mentor | Instant Software Solutions Mar 2025 – Nov 2025 | Cairo, Egypt

- Mentored 50+ junior developers in React.js, TypeScript, Redux, and responsive design; conducted code reviews to enforce clean code standards and improve team code quality.
- Contributed to real-world client projects by writing and reviewing code alongside trainees, elevating team output to production-level quality standards.

Programming Instructor | Academy – Helwan Jan 2023 – Sep 2023 | Cairo, Egypt

- Taught programming fundamentals, problem-solving, and algorithmic thinking using Python, C++, and JavaScript to learners of varying skill levels.

PROJECTS

HRX – Human Resources Management System | Capstone Project @ Digilians

- Designed a scalable React.js + TypeScript frontend with Redux state management and real-time updates; built a modular Node.js + Express.js REST API backend with MongoDB Atlas; wrote Jest unit tests to validate core business logic and ensure software reliability.

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate — Meta / Coursera
- Python for Data Science, AI & Development — Coursera
- Developing Front-End Apps with React — Coursera
- Introduction to Software Engineering — Coursera
- Programming with JavaScript — Coursera | Foundations of Web Development — Udemy

ADDITIONAL TRAINING

- Front-End Developer Trainee, ITI — Aug–Oct 2024: HTML5, CSS3, JavaScript, React.js, state management, responsive design, version control with Git.
- Web Designer Trainee, NTI — Oct–Dec 2024: Responsive web interface design; client requirements gathering and delivery alignment.
