

MONA FAKHRI SALEM

Software Engineer

Cairo, Egypt | monafakhri50@gmail.com | +20 115 492 6990 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on software development experience and a strong foundation in data structures, algorithms, object-oriented programming, and problem solving. Experienced in using Python, C++, JavaScript, and TypeScript to build and test software solutions, with practical exposure to backend development, frontend applications, RESTful APIs, databases, and CI/CD workflows. Solved 100+ algorithmic problems on LeetCode and applied clean code, SOLID principles, software testing, and Agile practices in team-based projects. Seeking a Software Engineering Internship to contribute to reliable software systems while developing strong engineering skills across different technical domains.

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript (ES6+), TypeScript, SQL

Data Structures & Algorithms: Data Structures, Algorithms, Problem Solving, Time and Space Complexity, Recursion, Sorting, Searching, Trees, Graphs, Dynamic Programming

Computer Science Fundamentals: Object-Oriented Programming (OOP), SOLID Principles, Design Patterns, Clean Code, Database Systems, Operating Systems, Computer Networks

Software Development: RESTful APIs, API Integration, Unit Testing, Agile/Scrum

Web Technologies: React.js, Next.js, Node.js, Express.js, NestJS, HTML5, CSS3, Redux, Responsive Design

Databases: MongoDB, MongoDB Atlas, SQL

Tools & DevOps: Git, GitHub, Docker, GitHub Actions, CI/CD, Jest, React Testing Library, Postman, Webpack, Vite

PROBLEM SOLVING & ALGORITHMS

- Solved 100+ algorithmic problems on LeetCode covering arrays, strings, hash tables, sorting, binary search, linked lists, stacks, queues, trees, recursion, and dynamic programming.

PROFESSIONAL EXPERIENCE

Software Development Trainee | Digilians Jan 2026 – Jun 2026 | Cairo, Egypt

- Completed 250+ hours of intensive software engineering training and built end-to-end applications using React.js, Next.js, Node.js, and NestJS.
- Architected HRX, a full-stack B2B SaaS HR management system with five core modules, JWT authentication, and role-based access control using React.js, TypeScript, Redux, Node.js, Express.js, and MongoDB Atlas.
- Integrated Performix, an AI-driven performance evaluation engine, to automate employee appraisals and generate data-driven insights for managers.
- Wrote unit tests with Jest and React Testing Library and managed Docker-based CI/CD workflows using GitHub Actions.
- Collaborated in Agile sprints and maintained version control using Git and GitHub while applying SOLID principles, clean code, and OOP practices.

Front-End Mentor | Instant Software Solutions Mar 2025 – Nov 2025 | Cairo, Egypt

- Mentored 50+ junior developers in React.js, TypeScript, Redux, and responsive design through technical guidance and code reviews.
- Reviewed and contributed to client-facing projects, improving code quality and aligning implementations with clean code standards.

Programming Instructor | Academy – Helwan Jan 2023 – Sep 2023 | Cairo, Egypt

- Taught programming fundamentals, problem-solving, and algorithmic thinking using Python, C++, and JavaScript to learners with varying skill levels.

SELECTED PROJECT

HRX – Human Resources Management System | Capstone Project @ Digilians

- Designed a scalable React.js and TypeScript frontend with Redux state management and real-time updates.
- Built a modular Node.js and Express.js REST API backend with MongoDB Atlas, JWT authentication, and role-based access control.
- Implemented Jest unit tests to validate core business logic and improve software reliability.

EDUCATION

B.Sc. in Computer Science — Cairo University, Cairo, Egypt

Relevant Coursework: Data Structures, Algorithms, Database Systems, Operating Systems, Computer Networks, OOP

CERTIFICATIONS

- Python for Data Science, AI & Development — Coursera
- The Complete JavaScript Course 2025: From Zero to Expert! — Udemy
- Introduction to Software Engineering — Coursera
- Meta Front-End Developer Professional Certificate — Meta / Coursera
